

Journée de l'ARN

Le 15 décembre 2017 – D-560

Comité organisateur: Gerardo Ferbeyre

12 présentations de 10 min avec 5 min de questions

Programme

9h00 Yifei Yan, PhD student, Francois Major lab

The modular features that define efficient and specific microRNA silencing guides

9h15 Sami H Sine, DesGroseillers lab

Rôle de Staufen1 sur le fuseau mitotique.

9h30 Gertraud Burger,

Description of hidden genes at the transcript level.

9h45 Fred Lessard, Postdoc, Ferbeyre lab

Ribosome biogenesis in senescent cells

10h00 Franz Lang,

Programmed translational bypassing in mitochondria: mechanism, mobility and origin

break

10h30 Emilie Pourret, Chartrand Lab

Imaging telomerase RNA molecules in living cancer cells »

10h45 Srivathsan Adivarahan, Zenklusen lab

Investigating features of mRNP organization using super-resolution microscopy"

11h00 Benoit Bouvrette, Lecuyer lab

Systematic Characterization of Subcellular RNA Localization Through Fractionation-Sequencing

11h15 Veronique Bourdeau, (project description)

RNAs in exosomes: mechanisms and disease relevance

11h30 Discussion

12h00 Pizza
