

MITACS PDF fellowship Feb 2019-Jan 2020

Dr Carole Creuzenet lab Microbiology and Immunology Western University, London, On

Dr Creuzenet is looking for a PDF for a MITACS fellowship starting in February 2019 to work on the anti-*Helicobacter pylori* effects of Lactobacilli secretomes and their mechanisms of action.

The work is to be carried out in the Creuzenet lab at the University of Western Ontario, with 2-3 yearly visits to the Industrial Partner's site in Montreal on an ad hoc basis.

The PDF is required to have a PhD in Microbiology or related field, and ideally in bacterial pathogenesis.

Current PhD candidates who have a scheduled defense in January 2019 will also be considered for the position.

Interested applicants should contact Dr Creuzenet at ccreuzen@uwo.ca and send a cover letter, CV, list of publication and potential references names. Interviews will start in Dec 2018.
